2. Content of information disclosed:

Based on the Circular No. 96/2020/TT-BTC guiding information disclosure on the securities market, Sai Gon Vien Dong Technology Joint Stock Company hereby hereby explain the difference between the reviewed financial statements for the first six months of 2026 and the financial statements for the same period of the immediately preceding year, as follows:

This is an English version, if there is any discrepancy or different understanding between the Vietnamese version and the English version, the Vietnamese version shall prevail

The causes of the differences include:

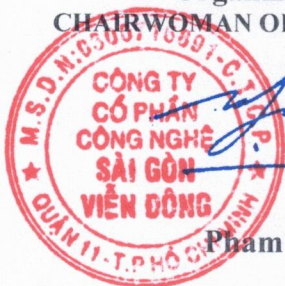

The reviewed financial statements for the first six months of 2026 show no significant difference in revenue because the revenue from educational operations during the period partially offset the income from financial investments compared to the same period last year due to impacts by general difficulties of the domestic and global economy.

However, profit after tax decreases sharply compared to the same period last year in both the education and financial investment sectors, with only a modest amount of dividend income received from the education sector. Nevertheless, the company remains profitable for the period, albeit modestly.
